June 26, 1987

TO: File

FROM: Frank Filas, Reclamation Engineer 

RE: Site Inspection , DOE/O37/O27, ML 29631 - Utah Mineral Development Co.

On June 2, 1987 Frank Filas of the Division and Jerry Mansfield of State Lands inspected this small, inactive uranium mine. The site consists of an open decline and a waste pile - pad area. There was a minor amount of trash on site. Total disturbance is approximately one acre.

The access road to this mine continues on to the north (section 25) to a mine site that was recently operated by Nick Murphy Jr. of Moab. This site is littered with junk and two abandoned vehicles. An attempt will be made to contact the operator and get the site cleaned up.
